

Village of Coxsackie
Board of Trustees

Regular Meeting
March 13, 2023
7:00 p.m.

Agenda

- Meeting called to order / Pledge of Allegiance

- Review & approval of Workshop Meeting Minutes from February 9, 2023.

- Review & approval of Local Law #2 of 2023 Public Hearing Minutes from February 13, 2023.

- Review & approval of Board Meeting Minutes from February 13, 2023.

- Public Comment Period - **Agenda Items Only**

- Correspondence Received
 - 1) Letter from Brandon Coats, of 11933 Rt. 9W, asking for a 1-year payment plan to pay off his water/sewer account balance of \$2,954.83.
 - 2) Letter from NYS DEC regarding Article 24 Freshwater Wetlands Permit for South River Street Drainage Improvements.
 - 3) Letter from Greene County Economic Development, Planning and Tourism, introducing James Hannahs, as Director of Economic Development, and also explaining the many opportunities available.
 - 4) Letter from the Town of Coxsackie Assessors Office requesting a member list of firefighters for the property tax exemption.
 - 5) Letter from Coxsackie Hose Co. #3 advising that their banquet is on Saturday, April 8th, 2023.
 - 6) An email from the CBIZ Valuation Group, LLC, who is contracted by NYMIR, the Village's new insurance company, stating that they are looking to come and perform a site visit of all buildings.
 - 7) An email from Demetri Chriss regarding the hazardous state of Ely Street sidewalks for pedestrians.
 - 8) An email from Veronica Foley regarding the NY Forward Grant Proposal.

- Correspondence Sent

- 1) Annual Village Update Letter sent to Village residents.
- Old Business / Informational – None
 - New Business – None
 - Motions & Resolutions:
 - 1) Approve the request received from Brandon Coats, of 11933 Route 9W, to enter into a 1-year payment plan to pay off his water/sewer account balance of \$2,954.83.
 - 2) Approve the request received from Laura Ingram, of 6 John Street, asking to remove penalties in the amount of \$48.13 from her water/sewer account.
 - 3) Approve the Peddler’s Permit application received from Mr. Ding-A-Ling to sell ice cream from April 1st through October 1st.
 - 4) Approve the request received from Empire State Capital Volkssporters (ESCV), a walking group, looking to hold a walk in Coxsackie on September 30, 2023.
 - 5) Approve scheduling the Annual Organizational Meeting to be held on Monday, April 3rd at 7:00 p.m.
 - 6) Approve scheduling the dates of 3/23, 3/30, 4/6, 4/13 and 4/20 at 6:00 p.m. as Budget Work Sessions.
 - 7) Approve scheduling a Public Hearing for Local Law #3 of 2023-Authorizing a Property Tax Levy in Excess of the Limit Established in General Municipal Law §3-C for Thursday, April 20th at 5:30 p.m.
 - 8) Approve scheduling a Public Hearing for the 2023-2024 Proposed Tentative Budget for Thursday, April 20th at 5:45 p.m.
 - 9) Deny awarding any bids received for the purchase of the 6’x10’ aluminum sewer dump trailer.
 - 10) Approve putting the 6’x10’ aluminum sewer dump trailer out to bid for a second time.
 - Approve water/sewer adjustments from February 1-28, 2023
 - Approve the attached Appropriation Changes.
 - Review and Approval of Bills on Abstract # 10
 - General Fund, Vouchers # 564-615, totaling \$ 66,954.26
 - Water Fund, Vouchers # 344-378, totaling \$ 51,426.06
 - Sewer Fund, Vouchers # 272-294, totaling \$ 32,959.22
 - Heroes Banner Fund, Voucher # 9, totaling \$ 468.00
 - Owl Project Fund, Voucher # 11, totaling \$ 95.00
 - Trust & Agency Fund, Vouchers # 21-25, totaling \$ 1,265.65

- Public Comment Period
- Adjournment

Village of Coxsackie

Workshop Minutes

February 9, 2023

The Workshop Meeting was called to order by Mayor Mark Evans at 6:00 p.m. Present were Trustee Donald Daoust, Trustee Stephen Hanse, Trustee Katlyn Irwin, and Trustee Rebecca Vermilyea.

Water & Sewer Requests

The Board deliberated on the following water & sewer request received:

Patricia & Lawrence McCarroll, 25 Warren Avenue-Requesting late fee waived of \$45.70. They claim that they never received a previous bill. Payment history is good. It was decided to put on the agenda for approval at the upcoming Board Meeting on Monday, February 13th.

Lorraine Reid, 27 Church Street-Laura Reid and her husband are caring for elderly parent, Lorraine Reid, as Power of Attorney. They are asking for late fees waived in the amount of \$199.62, and a payment plan to pay off the remaining balance of \$739.69. It was decided to put on the agenda for the upcoming Board Meeting on Monday, February 13th, for approval of the penalty removal, and a 6-month payment plan to pay off the remaining balance.

Summer Recreation

The Mayor stated that both Tara Bachner & Agenta Russo will be attending the Board Meeting on Monday, February 13th to give an update on the 2022 Summer Recreation Program, and to discuss potential changes to the 2023 Summer Recreation Program. The changes may include cancelling the Learn to Swim Program and rolling that money into adding an additional week to the Summer Recreation Program. The Learn To Swim Program participation has been dwindling.

Wastewater Treatment Plant Trailer

The Board discussed putting the new, and never used, dump trailer out to bid. The trailer was originally purchased with the intent of the Wastewater Department using it to haul away plastics, but then they discovered another way to dispose of the waste, and it was no longer needed. It was decided to put on the agenda for approval at the upcoming Board Meeting on Monday, February 13th. The bids will be due by the next Workshop Meeting on March 9th, and will be awarded at the next Board Meeting on March 13th.

Memorial Day Parade

The Board discussed the request received from the American Legion asking to hold the Annual Memorial Day Parade on May 29, 2023. Line-up will be at noon, and step-off will be at 1:00 p.m. It was decided to put on the agenda for approval at the upcoming Board Meeting on Monday, February 13th.

Crossing Guard

The Board discussed accepting the resignation received from Crossing Guard Chris Vieta. The Village has already advertised to fill the position. Only one application was received. The Village Clerk stated that there was another application on file from an applicant from back in August. At that time, the Village was not hiring. The Board asked the Clerk to reach out to the

applicant to see if they are still interested in the position.

Comprehensive Plan Update

The Board discussed putting out a Request for Proposal (RFP) for an update to the Comprehensive Plan. The Board would like to have an idea of how much this will cost in time for working on the upcoming budget. It was decided to put on the agenda for approval at the upcoming Board Meeting on Monday, February 13th. The RFP's will be due by the March meeting. The Mayor stated that the estimate that was received from ELAN Planning a while ago was between \$75,000.00 and \$90,000.00. He is hoping to receive proposals for less than that. There is also potential that the Greene IDA would commit money to the update if the Village and Town decides to do a joint plan again.

Department of Health Wastewater Covid Surveillance

The Board discussed a notice received from Greene County Public Health stating that our Wastewater Treatment Plant has been added as a Covid testing site. The Mayor stated that he is unsure of the testing details as of right now.

Fire Department 10% Property Tax Assessment Reduction

The Board discussed reviewing and approving parameters for eligibility, preparing for the Public Hearing on Monday, February 13th, and passing the Local Law (Local Law #2 of 2023).

The Mayor stated that it is up to each municipality to pass a Local Law and determine what parameters will be used to determine eligibility. The Local Law has to be passed, and a list of eligible applicants has to be submitted to the Town Assessor's Office by March 1st. Both the Mayor and Trustee Daoust will abstain from voting on the Local Law since they will receive the benefit for being in the Fire Department.

Robert Stout, Village Attorney, stated that real property owned by an enrolled member of an incorporated volunteer fire company, fire department, or incorporated voluntary ambulance service, or such enrolled member and spouse residing in the Village of Coxsackie shall be exempt from taxation to the extent of ten percent (10%) of the assessed value of such property for Village purposes, exclusive of special assessments.

The Board deliberated with the Village Attorney about twenty-year active members, un-remarried surviving spouses of volunteers killed in the line of duty, and un-remarried surviving spouses of volunteers with at least twenty years of service.

Attorney Stout stated that the applicant shall maintain continual eligibility for the exemption in accordance with General Municipal Law Section 217 requirements for the Service Award Program, which defines active service as the accrual of a total of fifty (50) points during each anniversary year in accordance with a set of criteria outlined in the draft Local Law.

Mayor Evans stated that there are around 25-30 eligible residents per the Fire Chief's list. Eligible residents can take either the \$200.00 tax credit or the 10% property tax exemption.

Trustee Daoust stated that he thought that residents could receive both the \$200.00 tax credit and the property tax exemption.

Attorney Stout stated that he can look into whether or not residents can receive both.

Trustee Irwin asked for clarification on the point system.

Attorney Stout stated that one point shall be granted to a volunteer firefighter or member of a volunteer ambulance corps for each of the following activities performed: Participation in a single training session, participation in a single drill, completion of a single work night, completion of each year of service, election or appointment to a position within the volunteer company, including as a delegate to a firefighter's convention, teaching a public education fire prevention class without compensation to a school, non-profit, or civics organization, attendance at a single official meeting or a volunteer company, participation in a single response and/or standby, volunteers either temporarily and totally, or partially and permanently disabled, as certified by the workers compensation board, during the course of service or while actively engaged in providing line of duty services, shall receive five (5) points for each full month of disability, and volunteers whose continuous service is interrupted by up to four years of full-time active military duty are eligible for fifty (50) point each full year, prorated for service less than a year.

Trustee Hanse asked if future Boards can amend the property tax exemption percentage.

Attorney Stout stated that the exemption percentage can be amended, but that it requires a Public Hearing and Local Law change.

Trustee Daoust asked if there is a variance process for those residents who don't meet the 50 point criteria.

Attorney Stout stated that there is no variance process per the Length of Service Award Program (LOSAP).

Trustee Hanse asked who verifies participation.

Mayor Evans stated that every time a Fire Department member does anything, they must sign in at their respective firehouse. This information is then given to the Fire Chief to track.

Trustee Daoust stated that Fire Department members also have to sign in so that they are covered by workers compensation.

Trustee Hanse stated that in Section 3 of the draft Local Law, talking about the continuation of eligibility requirements, he feels that the phrase, "The applicant shall..." should be changed to, "an enrolled member shall also be required to..."

Mayor Evans stated that in Section 7 of the draft Local Law, talking about the application process, the "Village Assessor" needs to be removed. There is only a "Town Assessor" in Coxsackie.

Attorney Stout stated that he will make those changes.

The Board entered into an Attorney/Client privileged session with Village Attorney, Robert Stout at 7:10 p.m.

The Board returned to the regular Workshop Meeting at 9:10 p.m.

A motion to adjourn the meeting was made by Trustee Daoust and seconded by Hanse. Trustee Daoust voted yes. Trustee Hanse voted yes. Trustee Irwin voted yes. Trustee Vermilyea voted yes. The motion carried.

The meeting was adjourned at 9:10 p.m.

Respectfully submitted,

Public Hearing Minutes

Local Law #2 of 2023- Providing Real Property Tax Exemptions for Volunteer Firefighters and Ambulance Workers Pursuant to Section 466-A of the Real Property Tax Law

February 13, 2023

The Public Hearing was called to order by Mayor Mark Evans at 6:45 p.m. Present were Trustee Donald Daoust, Trustee Stephen Hanse, Trustee Katlyn Irwin and Trustee Rebecca Vermilyea.

Mayor Evans stated that the purpose of the Public Hearing is to allow for public comment on the proposed Local Law #2 of 2023 regarding providing a real property tax exemption for volunteer Firefighters and Ambulance Workers pursuant to Section 466-A of the Real Property Tax Law. He stated that this would provide for a 10% reduction in the property tax assessment for firefighters and volunteer ambulance workers that are part of our Fire Department. The Village does not have any volunteer ambulance workers. Greene County has passed this, and the Town of Coxsackie will be passing it tomorrow night. His understanding is that the Coxsackie-Athens School District is in the process of passing it this month. He said that it is on the agenda for approval by the Village during the Board Meeting tonight.

Christopher Chimento asked if this property tax exemption is meant to incentivize and reward firefighters.

Mayor Evans stated that that is correct. Right now, firefighters can accept a \$200.00 income tax credit. Or, if the Village enacts this Local Law, firefighters can opt for this property tax exemption. You have to choose one or the other, not both. It has been a long time coming.

Trustee Daoust stated that the only thing that he has a question about is the continuation of eligibility requirements. He did not realize that that section had to be part of the Local Law. He thought that that would be handled internally with the Fire Department.

Mayor Evans stated that the eligibility requirements have to be a part of the Local Law because the Village, as the authority having jurisdiction, has to decide what the criteria is.

Trustee Daoust asked if other municipalities have to come up with their own criteria.

Mayor Evans stated that each municipality has to adopt their own criteria. Upon checking with the Village Attorney, it seems that most municipalities are adopting the Length of Service Award Program (LOSAP) criteria.

Trustee Hanse stated that you can't have a subjective way to determine who is eligible. You need objective criteria.

Mayor Evans stated that that's not to say that you can't change the Local Law down the road by future administration. The Village has to put this list together to be submitted very quickly to the Town Assessor, so that each firefighter who is eligible can fill out a form and submit it to the Town in order to receive the exemption.

Trustee Hanse asked if the form has to be submitted by March 1st.

Mayor Evans stated that that is correct.

No further public comments were offered.

A motion to adjourn the Public Hearing was made by Trustee Hanse and seconded by Trustee Irwin. Trustee Daoust voted yes. Trustee Hanse voted yes. Trustee Irwin voted yes. Trustee Vermilyea voted yes. The motion carried.

The meeting was adjourned at 7:00 p.m.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Nikki Berezna". The signature is written in a cursive, flowing style with a long, sweeping underline.

**VILLAGE OF COXSACKIE
BOARD MINUTES
February 13, 2023**

Mayor Mark Evans called the Board Meeting to order at 7:00 p.m. Present were Trustee Donald Daoust, Trustee Stephen Hanse, Trustee Katlyn Irwin and Trustee Rebecca Vermilyea.

A motion to approve the minutes from the January 5, 2023 Workshop Meeting was made by Trustee Daoust and seconded by Trustee Vermilyea. Trustee Daoust voted yes. Trustee Hanse voted yes. Trustee Vermilyea voted yes. Trustee Irwin abstained. The motion carried.

A motion to approve the minutes from the January 9, 2023 Local Law #1 of 2023 Public Hearing was made by Trustee Hanse and seconded by Trustee Vermilyea. Trustee Daoust voted yes. Trustee Hanse voted yes. Trustee Irwin voted yes. Trustee Vermilyea voted yes. The motion carried.

A motion to approve the minutes from the January 9, 2023 Board Meeting was made by Trustee Irwin and seconded by Trustee Daoust. Trustee Daoust voted yes. Trustee Hanse voted yes. Trustee Irwin voted yes. Trustee Vermilyea voted yes. The motion carried.

A motion to approve the minutes from the January 25, 2023 Restore New York Communities Initiative Program Public Hearing was made by Trustee Daoust and seconded by Trustee Irwin. Trustee Daoust voted yes. Trustee Hanse voted yes. Trustee Irwin voted yes. Trustee Vermilyea voted yes. The motion carried.

A motion to approve the minutes from the January 25, 2023 Local Law #1 of 2023 Public Hearing was made by Trustee Hanse and seconded by Trustee Vermilyea. Trustee Daoust voted yes. Trustee Hanse voted yes. Trustee Irwin voted yes. Trustee Vermilyea voted yes. The motion carried.

Correspondence Received

A letter was received from the Capital District Bicycle Club requesting approval and assistance of the Police Department for the Annual David Brinkerhoff Memorial Races on April 22nd and April 29th.

A notice was received from Greene County Public Health stating that the Village's Wastewater Treatment Plant has been added as a Department of Health Covid Surveillance Testing Site.

A letter was received from Yohey Law, on behalf of Empire Riverfront Ventures, LLC, Empire F&B Ventures LLC, and Mazzone Hospitality, LLC, requesting a waiver of the 30-day notice period for the Wire Event Center and Patrick Henry's NYS liquor license application.

Correspondence Sent

A letter was sent to NYS Department of Environmental Conservation detailing the Wastewater Plant, pump stations, and collection upgrades, to seek relief from the long standing Wastewater Collection System Moratorium.

New Business

The Mayor stated that both Agent Russo and Tara Bachner, Directors of the Youth Program, are present this evening to give an update on the 2022 Summer Recreation Program, and to discuss potential changes they are recommending for 2023.

Tara Bachner stated that they ran a very successful program last year. They had 5 new counselors, and 7 returning counselors that all did a fantastic job. They followed all very

important expectations including no use of cell phones, and no taking and posting pictures of the kids. There were no issues during the entire 6 weeks of the program. The only time counselors would use their cell phones was to communicate with the directors.

Mayor Evans asked if the Youth Program needs more walkie-talkies.

Tara Bachner stated that they discussed this at the beginning of last year, but it was decided that they aren't needed. It is much easier to use cell phones to communicate. She feels that the counselors did a really fantastic job and hopes that most of them will come back again this year.

Mayor Evans stated that this is the first time in several years that he has not received a single phone call, text, or email from a parent with concerns.

Agenta Russo stated that they registered 135 kids. In the end of June, due to the staffing restrictions that they had, they had to cut the registration off. They did have a few people reach out to them after the registration cut-off. On average they had about 72 kids for the Summer Recreation Program, which is fabulous. That is pre-Covid numbers coming back to the program. She was really happy to see this, being that the previous year they had to cap the program at around 30 due to Covid. She also registered 19 Counselors in Training (CIT). Those are kids that are too old to play, but too young to be employed by the Village just yet. Daily, they had 12-15 of those kids show up. They receive National Junior Honor Society credits for participating in the program in this fashion. The Learn to Swim Program is where they saw a real lull in participation. There were 40 kids that were registered for the Swim Program. There was an average of 12 kids for the first session, with 8 being bussed to/from the Ravenna pool. There was an average of 22 kids for the second session, and not a whole lot of them were being bussed either. They did run into some issues where children were out of the water more than they were in it. 9:30 in the morning is a little chilly to swim, even in August. They don't have the staff for safety purposes to keep track of kids outside of the water, as well as inside. They are currently proposing an extra week of the Summer Recreation Program instead of the Swim Program for this year. They have been told several times by parents that nobody is really looking for that type of Swim Program anymore. The YMCA is offering swim lessons at people's homes. That has been a severe detriment to that part of the program. So, they are looking to give the kids some different experiences in the Summer Recreation Program instead.

Tara Bachner stated that by doing this, they would be able to provide "Fun Fridays", which could include some sort of assembly, like "Hero Day". They would be able to offer 5 of these with the way that the schedule would fall. They also added Science, Technology, Engineering and Math (STEM) last year, which involves a short activity where kids are given supplies, and very little details, and the kids get to use their imagination to build different things. They would like to continue this since the kids seemed to really like that exploration time. The kids also love the "Build-A-Buddy" that the program provides for them. This is where the kids pick their animals, stuff them, and give them program related T-Shirts. They would like to continue doing this as well. With 5 weeks of programming, this would allow them to hire another staff member. This way, they would not have to close off their registration as soon and could continue allowing sign ups a lot longer. The school offers a Summer Food Program that includes 5 weeks of breakfasts and lunches. So, the kids attending the Summer Recreation Program would be able to take advantage of the food program the entire time. The breakfasts are brought to the program, and lunches are eaten in the Middle School.

Mayor Evans asked if the Summer Food Program offered by the school is a completely free program.

Tara Bachner stated that the program is completely free for those 18 years old or younger.

Agenta Russo stated that the Summer Recreation Program is the biggest contributor for the Summer Food Program at the school. We provide the numbers for their food program to be able to continue to run every year, but then it also provides food to the kids attending the Summer Recreation Program. It's a great program.

Mayor Evans asked if they knew if the YMCA is providing a program anymore.

Tara Bachner stated that she is unsure if the YMCA is providing a program this summer.

Mayor Evans asked if the YMCA provided a program last summer.

Tara Bachner stated that the YMCA did not have a program last summer.

Agenta Russo stated that it seems that the Village is the only program running.

Trustee Hanse asked if there are a lot of younger kids, and what the age spread looks like.

Agenta Russo stated that it seems to be shifting. They do take kids going into kindergarten, so the kids get a taste of what school looks like before they've officially been to school. That has been a popular thing for them. Now, they are shifting from kindergarten/first grade being the big group, to 3rd, 4th and 5th grades being the big group. The CITs were huge this year as well.

Trustee Hanse asked if 5th grade was the cut off age.

Agenta Russo stated that completed 5th grade/entering 6th grade is the cut-off.

Mayor Evans asked if New Baltimore, Greenville, or Athens run any similar programs.

Agenta Russo stated that Athens used to run a similar program, but she has not heard anything about it since before Covid. She said that she does know that New Baltimore runs a program, but every year they are looking to hire counselors. She believes that last year they were told that they were not running the program due to staffing issues.

Tara Bachner stated that she knows that last year Athens ran a much smaller program due to Covid, but that this year may be a more normal year for them. The program in Athens is just for Athens Elementary School kids.

Mayor Evans asked if the Village's program is primarily in the Cocksackie-Athens Elementary School.

Tara Bachner stated that they use the Elementary cafeteria, art room, music room, and gym. It is really just their program that uses those spaces. Summer School uses the other side of the Elementary School.

Mayor Evans asked where the breakfast and lunch is given.

Agenta Russo stated that breakfast is brought down to them. The kids will just eat wherever their first station is. For lunch, they walk the kids to the Middle School. The Middle School is air conditioned which is nice. They are looking at purchasing an air conditioner for the art room this year. There were some really difficult days last year. Last year they did use some days in the Teacher's lounge, where the kids would play board games if it was too hot to go outside. There were those couple of days where there was a Heat Advisory during the summer. They would also dismiss the kids early on those days, so that the kids that walk home were not walking in the heat.

Trustee Hanse asked if the Village has to hire the Water Safety Instructors (WSI) for the Swim Program.

Tara Bachner stated that that is correct. One that they currently have may not be returning to the Program this year, due to college and other opportunities.

Trustee Hanse asked if they knew what the YMCA is doing this year.

Agenta Russo stated that the YMCA has a program where people can pay a flat fee, and they will have a WSI come to your house and give swim lessons for up to 10 kids in your pool. They are pretty intensive lessons for a great cost.

Tara Bachner stated that the Ravena pool also offers swim lessons at certain times throughout the summer.

Trustee Hanse asked if Hudson still has a pool.

Tara Bachner stated that Hudson still has a pool. Ravena also does offer swim lessons comparable in cost to what the Village has offered for \$45.

Trustee Hanse asked if they offer it in the summer.

Tara Bachner stated that they offer it throughout the year. They offer different classes for kids and adults. She said that a lot of the parents wanted their kids to learn how to be safe in the pool, but when the kids get to level 3, they are learning different types of swimming strokes. The kids seem to lose interest. The Village pays American Red Cross in order to run the Learn to Swim Program. However, a lot of the counselors haven't been trained in a lot of those areas either, in relation to the different swimming strokes etc. They were able to do the level 1 and 2 areas but weren't able to do a lot of the upper-level things. There were times that she was in their teaching because they didn't have the staff to help with this.

Trustee Hanse stated that if it is decided to do away with the Swim Program this summer, if they could notify parents that there are other programs available.

Tara Bachner stated that they can absolutely give out information on other programs. Kids that have attended the Learn to Swim Program get an American Red Cross card at the end of the program. They can show that card anywhere else they go, to continue their training starting from the level they have completed.

Agenta Russo stated that they can have information on hand to give to families who are asking.

Trustee Hanse stated that he understands the issues with continuing to run the Swim Program. He asked if running the busses was the biggest issue.

Agenta Russo stated that they had been with Athens' pool for years, and last year they tried to raise their price to a point where it was unaffordable for our budget.

Tara Bachner stated that Athens wanted over \$2,000.00 to use their pool. Ravena charged \$360.00. Using the Ravena pool was nice last year.

Mayor Evans asked if the Ravena School District does any type of water safety classes.

Agenta Russo stated that they offer a whole unit on swimming once they get to age 4 as part of their PE program.

Trustee Daoust asked if he understood correctly that parents pay \$45.00 for the Swim Program.

Tara Bachner stated that that is correct. Parents pay \$45.00/kid, but the cost to the Village is \$135.00/kid.

Trustee Daoust asked if they ever tried to reach out to Sleepy Hollow about using their pools.

Tara Bachner stated that they did not reach out to Sleepy Hollow.

Mayor Evans stated that the Village tried to reach out to them several years ago, but they were not interested due to liability issues.

Tara Bachner stated that they had kids that would still not put their faces in the water after a few days into the program. Trying to convince kids to do the lessons was really difficult this year. They had a lot of kids that didn't come after the first week. They had to talk to the parents about some of the children, and explain that they weren't comfortable, and that the counselors cannot force them to do the lessons. For whatever reason, things have changed over the years.

Agenta Russo stated that they used to offer 3 sessions. There were 8:30, 9:30 and 10:30 sessions. Now, they are down to a 9:30 session and 10:30 session. It is still very low enrollment. By the end of session one, which had the 12 kids, they were only bussing 4 kids to/from the pool. It's a big cost to run a full bus for 4 kids. She said that having that cost come back to them to use for

the Summer Recreation Program would be huge for them. They could do some new things, and hopefully draw in some new students from the district.

Trustee Hanse asked what the cost would be for a kid to sign up for the Summer Recreation Program.

Tara Bachner stated that there is no charge. It is free for the kids to join. They do ask for a donation for the "Build-A-Buddy" day to offset those costs.

Trustee Hanse asked if he understood correctly that they are just looking to take what is budgeted for the Swim Program and roll that into the Summer Recreation Program.

Agenta Russo stated that that is correct.

Tara Bachner stated that they would add another week of programming, but they are also looking at trying to bring some fun assemblies for the kids that they don't get throughout the school year, doing some crafts, trying to keep the STEM program going that the kids seem to really enjoy, and bringing "Sensory Days" back in where they can work with their hands.

Agenta Russo stated that they are just trying to provide kids with some different things. She said that they are looking to take what the program has been for several years now and try to freshen it up just a little bit. Hopefully, that will bring back some of those apprehensive kids. Working in the school, she hears some of the kids say that they don't want to go to the program because it is the same thing every year.

Tara Bachner stated that they had 72 kids a day on average, but on the last day, which is the "Build-A-Buddy" day, they had 108 kids show up. The kids were just so excited to have this themed day.

Agenta Russo stated that having the "Fun Fridays" would allow those kids attending summer school to attend as well, since summer school is Monday-Thursday. She said that the program really gives them an opportunity to provide something for the youth in the community.

Trustee Daoust asked what the ages are for the program.

Tara Bachner stated that it is from 5 years old, or entering Kindergarten, to completed 5th grade/entering 6th grade.

Agenta Russo stated that if they are between 11-16 years old, they can come back as volunteers, and once they are old enough, they can be hired as counselors.

Mayor Evans stated that he just received word that the YMCA does not have any swim instructors on staff as of right now.

Tara Bachner stated that they may not have their instructors this year either, and the one counselor that they were going to train may have an internship opportunity this summer.

The Board thanked Tara Bachner and Agenta Russo for their hard work and dedication to running the Youth Program.

Agenta Russo stated that she wants to see the program live on, and they will continue to do the best that they can.

Liaisons & Board Reports

Mayor Evans stated that the Village Board will dispense with the reading of the monthly department head reports, but that all monthly reports are on file with the Village Clerk.

Motions & Resolutions

A motion to approve the request received from the Capital District Bicycle Club to hold the Annual David Brinkerhoff Memorial Races on April 22nd and April 29th, with Police Department

assistance, was made by Trustee Daoust and seconded by Trustee Vermilyea. Trustee Daoust voted yes. Trustee Hanse voted yes. Trustee Irwin voted yes. Trustee Vermilyea voted yes. The motion carried.

A motion to approve the request received from Patricia & Lawrence Carroll, of 25 Warren Avenue, to waive late fees in the amount of \$45.70 from their water/sewer account was made by Trustee Daoust and seconded by Trustee Vermilyea. Trustee Daoust voted yes. Trustee Hanse voted yes. Trustee Irwin voted yes. Trustee Vermilyea voted yes. The motion carried.

A motion to approve the request received from Lorraine Reid, of 27 Church Street, to waive late fees in the amount of \$199.62 from their water/sewer account, and enter into a 6 month payment plan to pay off the remaining balance of \$739.69 was made by Trustee Daoust and seconded by Trustee Vermilyea. Trustee Daoust voted yes. Trustee Hanse voted yes. Trustee Irwin voted yes. Trustee Vermilyea voted yes. The motion carried.

A motion to approve putting the new, and never used, Wastewater Treatment Plant dump trailer out to bid, with bids due by 4:00 p.m. on March 9th was made by Trustee Daoust and seconded by Trustee Vermilyea. Trustee Daoust voted yes. Trustee Hanse voted yes. Trustee Irwin voted yes. Trustee Vermilyea voted yes. The motion carried.

A motion to approve the request received from the American Legion to hold the Annual Memorial Day Parade on May 29th, with line-up at noon, and step-off at 1 p.m. was made by Trustee Daoust and seconded by Trustee Vermilyea. Trustee Daoust voted yes. Trustee Hanse voted yes. Trustee Irwin voted yes. Trustee Vermilyea voted yes. The motion carried.

A motion to approve accepting the resignation from Chris Vieta as Crossing Guard was made by Trustee Daoust and seconded by Trustee Vermilyea. Trustee Daoust voted yes. Trustee Hanse voted yes. Trustee Irwin voted yes. Trustee Vermilyea voted yes. The motion carried.

A motion to approve putting out a Request for Proposal (RFP) for a Comprehensive Plan update was made by Trustee Daoust and seconded by Trustee Vermilyea. Trustee Daoust voted yes. Trustee Hanse voted yes. Trustee Irwin voted yes. Trustee Vermilyea voted yes. The motion carried.

A motion to approve scheduling a Special Meeting-Attorney/Client Privileged Session for Tuesday, February 21st at 6:30 p.m. was made by Trustee Daoust and seconded by Trustee Vermilyea. Trustee Daoust voted yes. Trustee Hanse voted yes. Trustee Irwin voted yes. Trustee Vermilyea voted yes. The motion carried.

A motion to approve the request received from Yohey Law, on behalf of Empire Riverfront Ventures, LLC, Empire F&B Ventures LLC, and Mazzone Hospitality, LLC, for a waiver of the 30-day notice period for the Wire Event Center and Patrick Henry's NYS liquor license application was made by Trustee Daoust and seconded by Trustee Vermilyea. Trustee Daoust voted yes. Trustee Hanse voted yes. Trustee Irwin voted yes. Trustee Vermilyea voted yes. The motion carried.

A roll call vote was taken on Resolution No. 52023-To Enact Real Property Tax Law Provision 466-A 10% Property Tax Exemption for Volunteer Emergency Service. Trustee Hanse voted yes. Trustee Irwin voted yes. Trustee Vermilyea voted yes. Mayor Evans and Trustee Daoust abstained. The resolution passed.

A motion to approve water/sewer adjustments from January 1-31, 2023 was made by Trustee Daoust and seconded by Trustee Irwin. Trustee Daoust voted yes. Trustee Hanse voted yes. Trustee Irwin voted yes. Trustee Vermilyea voted yes. The motion carried.

A motion to approve the bills on General Fund Abstract #9, vouchers 512-563 totaling \$74,853.20; Water Fund Abstract #9, vouchers 310-343 totaling \$55,339.38; Sewer Fund Abstract #9, vouchers 239-271 totaling \$92,850.64; Capital Projects Fund Abstract #9, voucher 6 totaling \$10,135.00; Owl Project Fund Abstract #9, vouchers 8-10 totaling \$1,164.90; Trust & Agency Fund Abstract #9, vouchers 17-20 totaling \$1,370.33 was made by Trustee Irwin and

seconded by Trustee Hanse. Trustee Daoust voted yes. Trustee Hanse voted yes. Trustee Irwin voted yes. Trustee Vermilyea voted yes. The motion carried.

Mayor Evans stated that there is one last item to discuss before opening Public Comment. A letter was received from the Town of Coxsackie notifying the Village that there is a house going in at 32 Warren Avenue that will require a new sewer connection. An existing sewer connection is fine, but any new sewer connections have to come to the Village, so that the Village can request approval from NYS DEC.

A motion to approve authorizing Delaware Engineering to send a letter to NYS DEC on the Village's behalf to seek approval for a new sewer connection at 32 Warren Avenue was made by Mayor Evans and seconded by Trustee Daoust. Trustee Daoust voted yes. Trustee Hanse voted yes. Trustee Irwin voted yes. Trustee Vermilyea voted yes. The motion carried.

Public Comment Period

No public comments were offered.

A motion to enter into Executive Session at 7:50 p.m. to discuss the potential hiring of a Crossing Guard applicant [name withheld] was made by Trustee Hanse and seconded by Trustee Irwin. Trustee Daoust voted yes. Trustee Hanse voted yes. Trustee Irwin voted yes. Trustee Vermilyea voted yes. The motion carried.

A motion to come out of Executive Session at 8:03 p.m. and return to the normal Board Meeting was made by Trustee Hanse and seconded by Trustee Irwin. Trustee Daoust voted yes. Trustee Hanse voted yes. Trustee Irwin voted yes. Trustee Vermilyea voted yes. The motion carried.

A motion to approve provisionally hiring John Greenaway as Crossing Guard per successful reference checks was made by Mayor Evans and seconded by Trustee Irwin. Trustee Daoust voted yes. Trustee Hanse voted yes. Trustee Irwin voted yes. Trustee Vermilyea voted yes. The motion carried.

A motion to adjourn the Board meeting was made by Trustee Daoust and seconded by Trustee Hanse. Trustee Daoust voted yes. Trustee Hanse voted yes. Trustee Irwin voted yes. Trustee Vermilyea voted yes. The motion carried.

The meeting was adjourned at 8:05 p.m.

Respectfully submitted,

17th February 2023

Village of Coxsackie

119 Mansion Street
Coxsackie, NY 12051

To Whom It May Concern,

Good morning, I am writing to you to address the issue of a water bill pertaining to the address, 11933 US 9W in West Coxsackie. It is to my knowledge that Mr. Sitcer has agreed to help me pay the past due balance of said water bill, with the agreement that I pay the remaining balance after his initial payment. I would like to request the option of a one (1) year payment plan be established between myself and the Village. I agree to pay my remaining balance over the course of one (1) year in monthly increments so long as I am granted a payment plan. Thank you for your consideration in this matter.

Sincerely,

Brandon Coats

03/10/23

March 10, 2023

To Whom it May Concern:

We would like to request a waiver of the rather large late fee penalty attached to our most recent water bill for our account # 11678

I made a payment online today in the amount of \$288.80 which included the late fee.

The late payment was merely an oversight on our part and given our most recent record of making our payments in a timely manner we would like to request that the penalty be reimbursed and applied to our next bill.

We have found that post Covid, many companies, student loan providers, utilities and banking institutions have done away with excessive late fees in the spirit of granting allowances to their loyal customers given the rise in so many other costs in this economic climate.

Thank you for your consideration.

Laura Ingram

RE: **Article 24 Freshwater Wetlands Permit**
DEC #4-1928-00250/00001
South River Street Drainage Improvements
Adjacent to 124 S. River St.
Coxsackie (V), Greene County

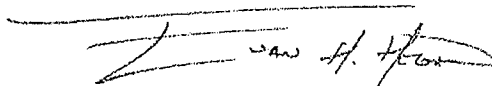

Dear Mayor Evans:

Enclosed, please find the Article 24 Freshwater Wetland Permit that you applied for. Please read the permit carefully and note the conditions that have been included. The permit is **effective February 16, 2023, and it will expire on May 8, 2024**. Work beyond the scope of the permit and the approved project plans may be considered a violation and subject to appropriate enforcement action.

Please be advised that the Uniform Procedures Regulations (6 NYCRR Part 621) provide that an applicant may request a public hearing if a permit is denied or contains conditions which are unacceptable to them. Any such request must be made in writing within 30 calendar days of the date of permit issuance and must be addressed to the Regional Permit Administrator at the letterhead address. A copy should also be sent to the Chief Administrative Law Judge at NYSDEC, 625 Broadway, 1st Floor, Albany, NY 12233-1550.

This permit does not eliminate the need to obtain any other state, federal, or local permits or approvals that may be required for your project. If you have any questions regarding this authorization, or your obligations under the permit, please contact me at any time by phone at (518) 357-2454 or by e-mail at Evan.Hogan@dec.ny.gov.

Sincerely,

Evan H. Hogan
Environmental Analyst

PERMIT
Under the Environmental Conservation Law (ECL)

GENERAL PERMIT GP-4-19-001
Freshwater Wetlands and Waters of the State

Permittee and Facility Information

Permit Issued To:
VILLAGE OF COXSACKIE
VILLAGE HALL
119 MANSION ST
COXSACKIE, NY 12051

Facility:
S River St
Adjacent to 124 S River St
Coxsackie, NY

Applicable DEC Region(s): 4

General Permit Authorized Activity:

This General Permit authorizes the specific regulated activities identified herein that occur within freshwater wetlands or 100-foot wetland adjacent areas (Article 24, 6 NYCRR Part 663), protected waters (Article 15, 6 NYCRR Part 608.2), navigable waters of the State (Article 15, 6 NYCRR Part 608.5), and/or may require a Water Quality Certification (Section 401 of the federal Clean Water Act), in accordance with the approved plans and any special conditions included in this permit.

Note: Refer to the *Instructions for Applicants – GP-4-19-001 Request for Authorization* for a description of application information required for GP-4-19-001 authorization.

Authorized Activities:

1. **Construction, repair/replacement, or expansion of minor accessories/appurtenances, including landscaping** associated with residential structures that does not change land use or population density (adjacent area only).
2. **Bridge/culvert repair or replacement** with a structure that has equal or increased hydraulic capacity as compared to existing culvert, wherever possible. Includes removal of debris within 50 feet of existing structure. Only minimal impacts to freshwater wetlands and/or wetland adjacent area are allowed, if unavoidable.
3. **Highway maintenance & repair** for linear highway projects involving 300 linear feet or less of stream bed/bank with only minimal impacts to freshwater wetlands and/or wetland adjacent area, if unavoidable.
4. **Emergency stream repair** including stabilization, debris removal, gravel removal, bridge/culvert repair and replacement, and realignments with only minimal impacts to freshwater wetlands and/or wetland adjacent area, if unavoidable.
5. **Boat launch or dock repair or replacement** with no increase in launch or dock size.
6. **Bulkhead/retaining wall repair or replacement** of existing functional structure within the same footprint as existing structure and with no advancement into waterbody (i.e., in-place).
7. **Stream restoration/stabilization** involving installation of new or replacement riprap, or other Department-approved method, that impacts 300 linear feet or less of stream bed/bank with only minimal impacts to freshwater wetlands and/or wetland adjacent area, if unavoidable.

8. **Existing building structure repairs or replacement** involving rehabilitation or demolition and replacement of structure within the same footprint (adjacent area only).
9. **Minor additions to an existing building structure** including accessibility improvements, resulting in only minimal increase in square footage. The addition of any rooms may not cause an increase in discharge to the septic system (adjacent area only).
10. **Construction of dry hydrants or ponds for fire protection** associated with residential structures that does not change land use. Does not authorize "in-line with stream" ponds. Seasonal work restrictions may apply. Dry hydrants may be placed within a freshwater wetland, if no other alternatives exist, or wetland adjacent area. Fire ponds are allowed in wetland adjacent area only.
11. **Repair or replacement of septic system** with County Department of Health approval (adjacent area only).
12. **Replacement, repair or other minor improvements to existing driveways, parking areas, walkways and sidewalks** with minimal increase in impervious area and only if necessary to achieve project objectives.
13. **Utility line stream crossing using horizontal directional drilling** with temporary impacts to wetland adjacent area. Top of utility crossing must be at least six (6) feet below the stream channel and disturbed areas must be restored to pre-construction grades and revegetated (adjacent area only).
14. **Temporary access roads** through wetland, wetland adjacent area, or stream channel where no other practicable alternative exists. Restoration required, including reestablishment of pre-construction grades and revegetation of disturbed areas.
15. **Dredging of serviceable ponds or construction of recreational pond** not requiring a Mined Land Reclamation Permit. New ponds are authorized in wetland adjacent areas only and must be one (1) acre or less in size.
16. **Existing stormwater/drainage systems** modifications to improve water quality and/or flood storage capacity.
17. **Vegetation Cutting:**
 - **Selective cutting, but not eliminating vegetation** (adjacent area - less than 1/4th acre, two or fewer times per year; freshwater wetland - less than 1/4th acre, once per year),
 - **Clear cutting vegetation, other than trees** (adjacent area - less than 1/4th acre, at least 25 feet from wetland edge), or
 - **Clear cutting trees** (adjacent area - less than 1/4th acre, not for future development).
18. **Other activities not mentioned above** that result in minor stream, freshwater wetland, and/or wetland adjacent area impacts. Impacts must not to exceed 300 linear feet of stream bed or bank, 1/10th acre of freshwater wetlands, 1/4th acre of wetland adjacent area, or 50 cubic yards of excavation or fill below mean high water mark.

Facility Location: in COXSACKIE in GREENE COUNTY **Village:** Coxsackie, NY
Facility Principal Reference Point: NYTM-E: 599.487 NYTM-N: 4688.928
Project Location: Near 124 & 125 South River St, Coxsackie, NY (Unnamed Trib to Hudson River)

Specific Activities Authorized for this Permit: This permit authorizes disturbances to the regulated adjacent area of Freshwater Wetland HN-102 and an Unnamed Class C stream associated with the removal of approximately 9-cubic yards of accumulated sediment and woody debris impeding flows during high-water events. The permittee will complete work when the stream bed is dry, with no flowing water, and use an excavator to remove accumulated material within the 160-foot long (966-square foot) work area and restore the channel to the contours shown in the approved plans referenced herein. All excavated material must be transported to the Village's specified storage location and all work must be completed in accordance with the conditions herein.

Permit Authorizations

Freshwater Wetlands - Under Article 24

Permit ID 4-1928-00250/00001

New Permit

Effective Date: 2/16/2023

Expiration Date: 5/8/2024

NYSDEC Approval

By acceptance of this permit, the permittee agrees that the permit is contingent upon strict compliance with the ECL, all applicable regulations, and all conditions included as part of this permit.

General Permit Authorized by

Permit Administrator: Nancy M Baker, Regional Permit Administrator

Address: NYSDEC Region 4 Headquarters
1130 N Westcott Rd
Schenectady, NY 12306

Date: 05/09/2019

This permit is not effective without the signature below:

Validation under this General Permit

Permit Attachments

Project Location Map	12/20/2022
Site Plan	12/20/2022

**NATURAL RESOURCE PERMIT CONDITIONS - Apply to the Following
Permits: FRESHWATER WETLANDS**

- 1. Conformance With Plans** All activities authorized by this permit must be in strict conformance with the approved plans submitted by the applicant or applicant's agent as part of the permit application. Such approved plans were prepared by Delaware Engineering DPC on behalf of the Village of Coxsackie and received by the Department on December 20, 2022.
- 2. Notice of Intent to Commence Work** Permittee shall notify the Regional Permit Administrator between 3 to 5 days prior to work commencement that work will begin on the approved project. Notification shall be made by e-mail to r4dep@dec.ny.gov or regular mail and must reference GP-4-19-001, include permittee name, and project start date.
- 3. Conditions Prevail Over Plans** If any condition of this permit conflicts with the approved plans, the permit condition shall prevail over the plans.
- 4. Failure to Meet Permit Conditions** Failure of the permittee to meet all the conditions of this permit is a violation of this permit and grounds for an order to immediately cease the permitted activity at the project site.
- 5. Prior Approval of Changes** If the Permittee desires to make any changes in construction techniques, species to be planted, the site plan, any mitigation plan, scheduling or staging of construction, or any other aspect of this project, the Permittee shall submit a written request to the Regional Permit Administrator to make such proposed changes and shall not make such changes unless authorized in writing by the Department.

6. Work Within Area Depicted on Plans All construction activity, including operation of machinery, excavation, filling, grading, clearing of vegetation, disposal of waste, street paving and stockpiling of material must take place within the project site as depicted on the project plans referenced by this permit. Construction activity is prohibited within areas to be left in a natural condition or areas not designated by the subject permit.

7. Human or Archaeological Remains If any human remains or archaeological remains are encountered during excavation, the permittee must immediately cease, or cause to cease, all work in the area of the remains and notify:

Regional Permit Administrator
NYSDEC Region 4 Headquarters
1130 North Westcott Road
Schenectady, New York 12306
email: r4dep@dec.ny.gov

Work shall not resume until written permission to do so has been received from the Department.

8. Minimize Adverse Impacts to Wetlands, Wildlife, Water All work must be performed in a manner which minimizes adverse impacts to wetlands, wildlife, water quality and natural resources.

9. Limit Clearing of Natural Vegetation Clearing of natural vegetation shall be limited to that material which poses a hazard or a hindrance to the construction activity.

10. Erosion and Sediment Controls Filter fabric barriers, silt fencing, or other methods to control erosion shall be properly installed according to the current *NYS Standards and Specifications for Erosion and Sediment Control* (i.e., on the downslope edge of any disturbed areas). These erosion and sediment controls must be put in place before any disturbance of the ground occurs, must be maintained "in place" in good working order throughout project construction, and are to be removed once all disturbed land is suitably stabilized.

11. Storage of Construction Equipment, Materials During construction, storage of construction equipment, unused materials and/or excavated soil shall be confined to an approved upland area at least 100 feet landward of any waterbody or wetland. Upon project completion, any demolition debris, excess construction, and/or excess excavated materials shall be immediately and completely disposed of at an approved upland site more than 100 feet from any waterbody or wetland, and outside any 100-year floodplain. These materials shall be suitably stabilized so they do not inadvertently enter any waterbody, wetland, wetland adjacent area, or 100-year floodplain.

12. Minimize Stream Disturbance Disturbance to the bed and banks of the stream shall be kept to the minimum necessary to complete the project.

13. No Interference With Navigation There shall be no unreasonable interference with navigation by the work herein authorized.

14. No Impedance of Aquatic Organisms The project shall not impede passage of aquatic organisms.

15. Stream Work Period In-stream or stream bank work in protected trout or trout-spawning streams, which are those streams with T or TS water quality standards, shall be accomplished only between June 15th and September 30th of each year this General Permit is in effect.

16. Embed Replacement Culvert If a replacement culvert is authorized, the new culvert shall be embedded into the stream channel using native material to a minimum depth that is 20 percent of the culvert vertical rise on both the inlet and outlet ends of the culvert.

17. Use of Natural Methods Natural methods and/or bioengineered techniques of shoreline and stream bank stabilization (e.g., native plantings, live stakes, root wads, brush bundles, coir logs, etc...) shall be utilized for stabilization projects with aquatic habitat restoration and/or improvement objectives.

18. Precautions Against Contamination of Waters All necessary precautions shall be taken to preclude contamination of any wetland or waterway by suspended solids, sediments, fuels, solvents, lubricants, epoxy coatings, paints, concrete, leachate or any other environmentally deleterious materials associated with the project.

19. Control of Concrete, Leachate, and Washings No wet or fresh concrete; concrete leachate; or washings from Redi-Mix trucks, mixers or other devices shall be allowed to enter any wetlands or waterbodies during construction.

20. Control of Sediment Sediment laden runoff shall not be allowed to enter any waterbody or wetland, either directly or indirectly, in such a quantity that would promote deposition.

21. No Discernable Change in Turbidity For projects within streams, the water below a stream work site shall remain as clear as the flowing water above the stream work site. In non-flowing waterbodies, there shall be no discernable change in water clarity (turbidity) proximate to the work area as a result of the project.

22. Water Diversion Around Work Site For projects within streams, the stream flow shall be diverted to isolate the work area by use of: a) sandbags, b) cofferdam, c) berm, d) temporary diversion channel, e) temporary diversion pipe, f) pump around, and/or g) pond outlet structure. Impeding fish and aquatic organism passage while diverting water around work site must be avoided whenever possible.

23. Turbidity Control from Excavated Soil Excavated soil shall be suitably retained and covered to avoid any direct or indirect discharge of sediment or turbid waters to wetlands or water bodies.

24. Upland Discharge of Pump-out Water Waters accumulated in an isolated work area shall be discharged to an upland settling basin, field or wooded area to provide for settling and filtering of solids and sediments before water is returned to the stream or waterbody. Return waters must be as clear as the flowing water upstream from the work area when work involves a stream.

25. Equipment Operation Equipment operation in open water is prohibited.

26. Equipment Operation for Stream Projects Equipment operation in the stream channel is prohibited, except where the work area has been isolated from stream flow using a method identified in Natural Resource Permit Condition No. 23 or other method that has received written approval from the Department.

27. Rock Slope for Stabilization Slope of rock rip-rap shall be at least two-foot horizontal to one-foot vertical (2:1 slope) or flatter. The first layer of rock rip-rap shall be installed to a depth of at least approximately 18 inches below the stream bed elevation, or “keyed” into the stream bed, in an effort to avoid scour that may destabilize the rock slope.

28. Rock Riffle Construction All interstitial voids within the rock riffle(s) shall be chinked with native stream bed material so that normal base flows remain on top of the riffle and do not flow subsurface.

29. Headwall Installation Rock headwalls shall be constructed at the stream inlet and outlet when installing or replacing a culvert.

30. Work During Lake Drawdown Periods In lakes that are drawn down seasonally, all work authorized along the shoreline only shall take place when the lake level is receded at least three (3) feet from the shoreline (mean high water elevation).

31. Turbidity Curtain When required by approved project plans, a filter fabric (turbidity) curtain weighted across the bottom and suspended at the top by floats shall be positioned at the waterward boundary of the work area and parallel to the shoreline to contain any turbid waters that may be generated during construction. The curtain shall remain in place and in functional condition during all phases of construction and shall remain in place until the turbidity inside the curtain no longer exceeds ambient levels. The curtain shall be removed only after work is complete and the site is suitably stabilized.

32. No Waterward Encroachment A replacement bulkhead/retaining wall must not encroach any further into the lake, pond or stream than the existing bulkhead/retaining wall.

33. No Waterward Excavation No excavation or filling is authorized on the waterward side of bulkhead/retaining wall or rock rip-rap.

34. Bulkhead Elevation A replacement bulkhead/retaining wall must not be constructed to an elevation any higher than the existing bulkhead/retaining wall.

35. Gravel Bar Skimming If authorized project includes gravel bar skimming, gravel shall be excavated from the stream channel, not pushed through the channel up against the banks. Depth of gravel skimming must not exceed that shown on approved plans.

36. Invasive Species Control To prevent the unintentional introduction or spread of invasive species, as defined by the Prohibited and Regulated Invasive Species regulations (6 NYCRR 575), all construction equipment shall be thoroughly cleaned of mud, seeds, vegetation, roots, rhizomes, etc. and other debris before entering any approved construction areas within the freshwater wetland, its wetland adjacent area, or within 50 feet of a protected stream’s bed or banks.

If invasive plant species are already found established on the site, equipment shall be thoroughly cleaned before exiting the construction site. All invasive species plant parts and propagules that are removed from equipment must be destroyed, buried onsite at least six (6) feet below the surface, or trucked to a landfill to prevent spreading to other locations. A list of Prohibited and Regulated Invasive Species can be found at the Cornell University Cooperative Extension – New York Invasive Species Information web

page (<http://nyis.info/regulated-species/>). Extreme caution should be taken to avoid the spread of these species throughout the duration of the project.

37. Aquatic Invasive Species Control All equipment entering water at the site shall be checked for aquatic invasive species, which are identified in the Prohibited and Regulated Invasive Species regulations (6 NYCRR 575). If aquatic invasive species rhizomes, roots or seeds are found, equipment shall be thoroughly cleaned before entering and exiting the construction site and/or waterbody. Aquatic invasive species must be disposed of at an appropriate upland location. Under no circumstance shall any aquatic invasive species propagule be allowed to enter another wetland, waterbody or floodplain. A list of Prohibited and Regulated Invasive Species can be found at the Cornell University Cooperative Extension – New York Invasive Species Information web page (<http://nyis.info/regulated-species/>). Extreme caution should be taken to avoid the spread of these species throughout the duration of the project.

38. Invasive Mussel Control To prevent the spread of invasive mussels species, equipment shall either be steam cleaned or allowed to dry for an appropriate amount of time prior to entering or leaving the waterbody. Appropriate drying times for zebra mussels and quagga mussels can be found at <http://www.100thmeridian.org/emersion.asp> or requested from the Regional Permit Administrator.

39. No Invasive/Non-Native Plant Species No invasive/non-native plant species shall be introduced to the site. Seed mixes chosen for stabilization of disturbed soil shall not include any invasive and/or non-native plant species, such as reed canary grass (*Phalaris arundinacea*). A list of both terrestrial and aquatic invasive/non-native plant species can be found at the Cornell University Cooperative Extension – New York Invasive Species Information web page (<http://nyis.info/wp-content/uploads/2018/07/NYS-Part-575-Prohibited-and-Regulated-Plants.pdf>).

40. Stabilize Disturbed Areas All areas of soil disturbance resulting from this project shall be shaped and/or graded, seeded with an appropriate seed mix, and covered with straw or other weed-free mulch within one week of final grading or prior to permit expiration if project is incomplete, whichever comes first. The mulching material shall be maintained until stable vegetative cover is established. The approved methodologies are as follows:

- a) Stabilization of the entire disturbed area with appropriate vegetation (e.g., grasses, etc.).
- b) Stabilized as per specifications identified on approved plans.
- c) Temporarily stabilized with straw mulch, jute matting or other similar natural fiber matting within one (1) week of final grading completion. Temporary stabilization shall be maintained until stable vegetative cover is established.

41. Temporary Mulch and Seed If seeding is impracticable due to the time of year, straw, jute matting or other weed-free mulch shall be applied within one (1) week of final grading completion and final seeding shall be performed at the earliest opportunity when weather conditions favor germination and growth but not more than six (6) months after project completion.

42. Stabilize Excavated Soil Any excavated soil stockpiled and remaining after construction is completed shall be placed outside the wetland and wetland adjacent area, and at least 50 feet from any protected stream banks. The excavated soil shall be suitably retained and covered so that there is no turbid runoff discharged either directly or indirectly into any waterbody or wetland.

43. Submission of Post-Construction Photographs The Permittee shall notify the Department of project work completion prior to the expiration of the General Permit authorization or within 30 days of the authorized work completion, whichever is earlier. Notification shall be submitted to the Regional Permit Administrator by e-mail to r4dep@dec.ny.gov or regular mail and must provide color photographs showing the completed work taken from at least two different angles, reference GP-4-19-001, the Permittee name, and the project completion date.

44. State Not Liable for Damage The State of New York shall in no case be liable for any damage or injury to the structure or work herein authorized which may be caused by or result from future operations undertaken by the State for the conservation or improvement of navigation, or for other purposes, and no claim or right to compensation shall accrue from any such damage.

45. State May Order Removal or Alteration of Work If future operations by the State of New York require an alteration in the position of the structure or work herein authorized, or if, in the opinion of the Department of Environmental Conservation it shall cause unreasonable obstruction to the free navigation of said waters or flood flows or endanger the health, safety or welfare of the people of the State, or cause loss or destruction of the natural resources of the State, the owner may be ordered by the Department to remove or alter the structural work, obstructions, or hazards caused thereby without expense to the State, and if, upon the expiration or revocation of this permit, the structure, fill, excavation, or other modification of the watercourse hereby authorized shall not be completed, the owners, shall, without expense to the State, and to such extent and in such time and manner as the Department of Environmental Conservation may require, remove all or any portion of the uncompleted structure or fill and restore to its former condition the navigable and flood capacity of the watercourse. No claim shall be made against the State of New York on account of any such removal or alteration.

46. State May Require Site Restoration If upon the expiration or revocation of this permit, the project hereby authorized has not been completed, the applicant shall, without expense to the State, and to such extent and in such time and manner as the Department of Environmental Conservation may lawfully require, remove all or any portion of the uncompleted structure or fill and restore the site to its former condition. No claim shall be made against the State of New York on account of any such removal or alteration.

GENERAL CONDITIONS - Apply to ALL Authorized Permits:

1. Facility Inspection by The Department The permitted site or facility, including relevant records, is subject to inspection at reasonable hours and intervals by an authorized representative of the Department of Environmental Conservation (the Department) to determine whether the permittee is complying with this permit and the ECL. Such representative may order the work suspended pursuant to ECL 71- 0301 and SAPA 401(3).

The permittee shall provide a person to accompany the Department's representative during an inspection to the permit area when requested by the Department.

A copy of this permit, including all referenced maps, drawings and special conditions, must be available for inspection by the Department at all times at the project site or facility. Failure to produce a copy of the permit upon request by a Department representative is a violation of this permit.

2. Relationship of this Permit to Other Department Orders and Determinations Unless expressly provided for by the Department, issuance of this permit does not modify, supersede or rescind any order or determination previously issued by the Department or any of the terms, conditions or requirements contained in such order or determination.

3. Applications For Permit Renewals, Modifications or Transfers The permittee must submit a separate written application to the Department for permit renewal, modification or transfer of this permit. Such application must include any forms or supplemental information the Department requires. Any renewal, modification or transfer granted by the Department must be in writing. Submission of applications for permit renewal, modification or transfer are to be submitted to:

Regional Permit Administrator
NYSDEC Region 4 Headquarters
1130 N Westcott Rd
Schenectady, NY 12306

4. Submission of Renewal Application The permittee must submit a renewal application at least 30 days before permit expiration for the following permit authorizations: Freshwater Wetlands.

5. Permit Modifications, Suspensions and Revocations by the Department The Department reserves the right to exercise all available authority to modify, suspend or revoke this permit. The grounds for modification, suspension or revocation include:

- a. materially false or inaccurate statements in the permit application or supporting papers;
- b. failure by the permittee to comply with any terms or conditions of the permit;
- c. exceeding the scope of the project as described in the permit application;
- d. newly discovered material information or a material change in environmental conditions, relevant technology or applicable law or regulations since the issuance of the existing permit;
- e. noncompliance with previously issued permit conditions, orders of the commissioner, any provisions of the Environmental Conservation Law or regulations of the Department related to the permitted activity.

6. Permit Transfer Permits are transferrable unless specifically prohibited by statute, regulation or another permit condition. Applications for permit transfer should be submitted prior to actual transfer of ownership.

NOTIFICATION OF OTHER PERMITTEE OBLIGATIONS

Item A: Permittee Accepts Legal Responsibility and Agrees to Indemnification

The permittee, excepting state or federal agencies, expressly agrees to indemnify and hold harmless the Department of Environmental Conservation of the State of New York, its representatives, employees, and agents ("DEC") for all claims, suits, actions, and damages, to the extent attributable to the permittee's acts or omissions in connection with the permittee's undertaking of activities in connection with, or operation and maintenance of, the facility or facilities authorized by the permit whether in compliance or not in compliance with the terms and conditions of the permit. This indemnification does not extend to any claims, suits, actions, or damages to the extent attributable to DEC's own negligent or intentional acts or omissions, or to any claims, suits, or actions naming the DEC and arising under Article 78 of the New York Civil Practice Laws and Rules or any citizen suit or civil rights provision under federal or state laws.

Item B: Permittee's Contractors to Comply with Permit

The permittee is responsible for informing its independent contractors, employees, agents and assigns of their responsibility to comply with this permit, including all special conditions while acting as the permittee's agent with respect to the permitted activities, and such persons shall be subject to the same sanctions for violations of the Environmental Conservation Law as those prescribed for the permittee.

Item C: Permittee Responsible for Obtaining Other Required Permits

The permittee is responsible for obtaining any other permits, approvals, lands, easements and rights-of-way that may be required to carry out the activities that are authorized by this permit.

Item D: No Right to Trespass or Interfere with Riparian Rights

This permit does not convey to the permittee any right to trespass upon the lands or interfere with the riparian rights of others in order to perform the permitted work nor does it authorize the impairment of any rights, title, or interest in real or personal property held or vested in a person not a party to the permit.

VILLAGE OF COXSACKIE

February 13, 2023

Dear Mayor Evans,

I am writing this letter to introduce myself as the Greene County Director of Economic Development and to reconnect you to our department's resources and functions. We are a component within the County's Economic Development, Planning, and Tourism Department directed by Warren Hart, Deputy County Administrator, who brought me aboard in August 2022.

Our primary function is to attract, retain, and expand public and private investment across Greene County. The department is no stranger to these efforts and our past accomplishments speak to our abilities to get catalytic projects planned and across the finish line. We have a successful history of applying technical assistance to implement capital improvement plans including two RestoreNY projects at the former Quality Inn and Foreland, which supplied a total of \$1.25 million in project financing. As of January 2023, we worked in tandem with another community to submit a third RestoreNY project for \$2 million, helping coordinate the successful and complete submission on time. These are only a few of the dozens of public grant programs we have experience in administering and implementing.

Additionally, our office keeps a working knowledge of state and federal programs that can potentially fund a variety of projects ranging from small business assistance to community development. Our team has successfully implemented Main Street programs that transformed blighted facades to inviting storefronts and remediating blight in downtowns across Greene County. We worked with the Greene County Chamber of Commerce to develop a campaign to market our County's craft-beverage businesses, giving local entrepreneurs a platform to strengthen their customer-base. Aside from project-specific business-support programs, we also manage direct funding opportunities in-house with the Greene County Economic Development Corporation.

GCEDC contracts with Greene County to manage their CDBG allocated funds across two loan programs: Quantum Fund and Microenterprise. Both loan funds offer funding for businesses that need equipment, inventory, and other startup and expansionary working capital with amounts based on business-size and level of job creation. GCEDC's loan programs offer sub-prime interest rates and pair well with other financing institutions and banks.

**Greene County
Economic Development,
Tourism & Planning**

411 Main Street, Suite 419

Warren Hart
Director

**GREENE
BUSINESS**

DiscoverGreene.com

To complement our loan programs, we are currently developing a Microenterprise Assistance Grant Program that will fund working capital, payroll, and equipment purchases up to \$25,000. The program will also constitute a small business training seminar that will train current and future entrepreneurs the basics of running their own business. We are striving to achieve a mid-second quarter launch date for this program.

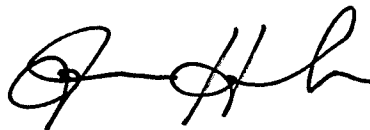

These are only a few functions we have at our disposal. Greene County is becoming a haven for entrepreneurs and a landing zone for business owners to expand. As business inquiries reach your offices and boards, I ask that you keep our abilities and resources in mind for collaboration. We would be happy to assist in helping these inquiries incubate and evolve into thriving, productive models for Greene County communities.

For more information regarding our resources, success stories, and contact information, please visit our websites below. Our Buy-In-Greene campaign is a consumer-targeted business marketing page making it easier to navigate countywide shopping opportunities. Invest In Greene targets entrepreneurs with technical skill building such as free e-books on how to build a business plan, shifting to e-commerce, and more. We also have a general overview of our functions, capabilities, and organizational background.

Re: Firefighters Member List

Dear fire department

In light of the new firefighters exemption available for the 2023 assessment roll I am requesting a list to include the following information.

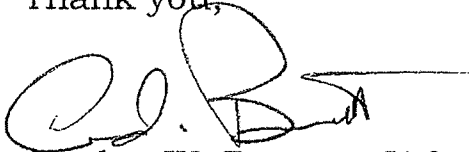

All active members and the date they began service.

I also would need any members who have twenty years of service whether they are active or not.

Please process this request as soon as possible so we can begin to qualify applications. In subsequent years this list would need to be updated. We will send you a request right after the first of the year. Also please certify your list by signing your name and the office you hold and the date of submission.

Thank you very much,

Thank you,

Gordon W. Bennett, IAO
Assessor

Subject: Village of Coxsackie site visits on behalf of New York Municipal Insurance Reciprocal (NYMIR)
Attachments: Village of Coxsackie.pdf

My name is Carrie Busalacchi with **CBIZ Valuation Group, LLC** contacting you on behalf of **New York Municipal Insurance Reciprocal (NYMIR)**. CBIZ has been contracted by NYMIR to conduct onsite building inspections of all of your insurable properties.

You have been selected as a member to be visited in 2023.

An intro letter is attached to this email as it also includes a list of the buildings our representative will need to see for your reference and review.

Our representative, **Robert Sinclair**, will be in your area **Wednesday, March 15th at 8am** if you have staff available.

Mr. Sinclair will need to visit and be provided access to **all buildings as well as all utility plant structures as applicable, regardless of value**. If you are unavailable to escort him to the sites, a facilities director, buildings & grounds employee, and/or maintenance employee would serve as an appropriate guide. An escort with knowledge of the listed facilities will be beneficial to all involved.

If you have accurate gross square footage of buildings, or have blueprints that the appraiser can view, it would be greatly appreciated, at least for your larger buildings. If not, the appraiser will have his measuring equipment handy and will be measuring while on-site.

Please email or call me to let me know where the appraiser should meet you or another liaison or to reschedule.

NEW YORK MUNICIPAL INSURANCE RECIPROCAL

March 7, 2023

Mr. Evans
Village of Coxsackie
119 Mansion Street
Coxsackie, NY 12051

Dear Mr. Evans:

In continuing to provide the most comprehensive insurance, along with an array of added beneficial services, NYMIR is finalizing the appraisal process to assess your municipality's buildings. In addition, all structures affiliated with Wastewater Treatment Plants and Water Filtration operations will be assessed. The primary purpose of this visit is to assist subscribers with establishing appropriate property values for insurance purposes. In no way is this an evaluation of building conditions, repair needs, or any other risk related measures. NYMIR has partnered with CBIZ Valuation Group, LLC who has been providing property insurance valuation services for over 30 years. This process is performed on a cyclical basis and your entity has been selected for inclusion this year.

Prior to the visit, the following will be needed to better facilitate the visit:

- Primary liaison to provide access to your facilities
- Access to recent (past 5 years) construction cost information (if readily available)
- Review of your municipality's up-to-date statement of values (attached to this letter)

Once the appraisal is completed and reviewed, NYMIR's underwriting department will update building values on your policy accordingly. These valuations may affect your property premiums. If you have any questions or concerns regarding your upcoming appraisal, please contact your insurance broker for assistance.

Sincerely,

Karen Buckley
NYMIR Vice President of Marketing

Mark,

Thanks for the prompt response.

Whether the flagstone stays or goes is of lesser significance than making certain that we all have safe and accessible sidewalks on Ely St and throughout the center of the Village.

The combination of Ely Street's steep incline, the narrow width of the roadway, increased pedestrian and vehicular traffic, and the high speeds of many of the passing vehicles has resulted in unsafe conditions for all.

Looking forward to the Village taking action to remedy this situation as soon as possible.

Regards,

Demetri

Subject: Ely St. Sidewalks

This email comes from outside the organization.

Do not click links or open attachments unless it is an email you expected to receive.

Hi Demetri,

I am responding back to the email you sent about the sidewalks on Ely St.

Over my tenure we have made sidewalk installation or replacement a priority adding almost 2,000 feet on new sidewalks and renovating almost 2,000 feet. Some examples, Spencer Blvd. had no sidewalks at all, Mansion St. from the Sunoco to the Senior Center and Washington Ave/Sutton Place where no sidewalks existed to connect the JCB development and provide a safe route to school and last year complete replacement of Sunset Blvd. sidewalk.

Due to prevailing wage requirements bidding out sidewalk work is prohibitive, costing 3-4 times greater than doing the work in house. Over the years as we have replaced DPW personnel we have added those with concrete experience so we can do the work in house and save money.

In addition, Community Highway Improvement Program or CHiPs money which is money the state grants us each year to repave roads, perform drainage work, install or improve sidewalks has been used to fullest. The program reimburses the Village for each dollar spent and as you can see, we repave roads and rehab sidewalks each year.

While we would like to address every section or street with bad sidewalks our budget does allow us to do that so we as a board do keep an ongoing list that is updated and reviewed each year.

I completely agree that the sidewalks on Ely St. need to be addressed.

About 10 years ago I approached many of the residents on the street between Church and Ely and several of those that had flagstone slab sidewalks were adamant about keeping them and not having concrete. Alternating between flagstone and concrete sections did not seem like a good or idea nor look good, so it was dropped for the time being.

While I see the aesthetic value of the flagstone slabs in keeping with the character of the houses in that area, flagstone does allow for a completely smooth surface and to your point of meeting ADA standards, likely does not meet that standard.

I will make certain that we discuss this at the next work session of the board, thank-you for bringing it to our attention.

Thank-you.

Mark

Subject: Hazardous State of Ely St. Sidewalks

Dear all,

Please be advised that the chronic state of disrepair of the Ely St. sidewalks, a central thoroughfare in the Village of Coxsackie, has resulted an increasingly prevalent public safety hazard.

With the exception of two sections of the sidewalks south of New St. that were rebuilt more than a decade ago, the greater part of Ely St between Church St. and Reed St. constitutes a hazard to pedestrians, subsequent to years of neglect and vehicles routinely parking and damaging the sidewalk surfaces.

The problem is even greater in the winter months, when residents are typically forced to walk on the street as result of the above in inclement weather conditions. It also goes without saying that ADA standards for sidewalks do not apply anywhere on Ely St.

The Village's Immediate attention to this matter is in order. As such, I would greatly appreciate the courtesy of a response from the Village agency/official(s) responsible for remediating this problem, whereby the scope and timeline of the necessary remedial actions shall be clearly set forth.

Sincerely,

Demetri Chriss

Hi Veronica,

2023

Annual Village Update Letter

The Village Board provides this update letter to residents on the many ongoing projects, as well as some of the issues and challenges facing the Village. Much of the work we do goes unreported by our local press, so we employ our website, Facebook, Village Sign, and this letter, to keep residents informed.

If you have questions or concerns after reading the update, please feel free to reach out to us, or attend a Village Board Meeting on the second Monday of each month. Minutes for Board Meetings are also available on the Village website: www.villageofcoxsackie.com. Coxsackie is on the verge of completing some important projects, and long sought after downtown re-development is beginning. This is an exciting time for our Village.

NY Forward Grant- The Village has been awarded a \$4.5 million NY Forward Grant for downtown revitalization!! Over the coming months, the public will have an opportunity to be a part of the process to evaluate the many proposed projects. Look for more information on our website and Facebook.

Covid-19 – Variants of Covid are still present, so residents should remain vigilant. We continue to take guidance from our State and County Public Health Officials as appropriate.

Wastewater Plant Upgrade – The original sewer plant was constructed in the 1960's, and had several upgrades over the decades, with the last one occurring in the 1980's. This current upgrade was completed during the summer of 2021 for \$17 million dollars, to upgrade the capacity at the wastewater plant, and wastewater collection system. This upgrade should allow the plant to operate for the next 30 years or more.

Wastewater Connection Moratorium – While the new wastewater plant and upgraded collection system work perfectly, the West Coxsackie pump station has continued to have an issue with ground, and/or creek water, entering the pump station, and overwhelming the system. Last year, we received a \$100,000 grant from the DEC to investigate this. Once we determine the problem and resolve it, we will be able to get the moratorium lifted.

New Water Tank – In 2019, we received a \$3 million grant towards construction of a 2-million-gallon water tank to give us enough storage capacity. We purchased a piece of land adjoining the water plant, and expect to construct the tank in 2023.

A long-standing weakness in our water system is the lack of storage capacity. We presently only can store about 450,000 gallons of water, which is very, very, small for a water system of our size. When a water break occurs, it can deplete the present storage capacity very quickly, threatening to run our water system dry, and diminish our firefighting capability.

Riverside Park- The State Parks worked with the Village to design the upgrade to the Riverside Park, and it was officially re-opened in May 2022 with many new features and experiences. Riverside Park is owned by the state but maintained and run by the Village. If you wish to reserve the Gazebo, Pavilion, or a section of the park for an event please visit the Village's website.

Old American Valve Site (Dog Park)- The Village has been actively pursuing this site through the eminent domain process in order to utilize a portion as a Dog Park, which many people have asked for over a number of years. We hope to obtain the property in the first half of 2023 and appoint a committee to design, fundraise and build a dog park.

Empire Riverfront Ventures – After a delay due to code enforcement issues, the Wire Center is now open and has held several events this winter. An open house and concert were held during the annual Christmas by the River. Patrick Henry's is slated to open soon, and the Hotel about mid-year.

Sidewalks – The summer of 2022 saw significant sidewalk work done in-house by our DPW crew. The sidewalk replacement on Sunset Blvd. was completed, as well as some small sections around the Village, and a section at the entrance to the DPW garage. In 2023, we will continue to replace several sections at various locations around the Village.

Local Waterfront Revitalization Plan Committee – LWRP for short. In 2019, the Village received a \$100,000 grant for developing this plan. 9 people were appointed to a committee by the Village Board, and Elan Planning, a trusted and

experienced municipal planning company from Saratoga, was hired. Covid slowed things, but this is in the final stages of development.

McQuade Park Playground/Pavilion – We dedicated the new playground in 2019, and we budget money each year to add some new features. The Pavilion next to the playground was estimated to be 30-40 years old, and simply reached the end of its life, as the supports had rotted away, and it was taken down in early January. We hope to have an announcement this winter about a replacement.

14 South River St. - Many plans have been developed over the last several years for improvements to the park. The restoration of 14 South River St., a historic building originally built as the George H. Scott Firehouse, continues as we apply for grants and accumulate funds. Our plan will be to develop this as a welcome/historical center celebrating the history of the Village and downtown. The building will be available for meetings and events, and an initial design plan includes bathrooms.

Farmers' Market – In a few months, the highly successful Farmers' Market will return for its 11th year under the guidance of market manager Eileen Goble. Each year the market has increased the number of vendors, added restaurants/food trucks providing food each week, along with music, and other entertainment. Volunteer help is always welcome, or if you are interested in being a vendor, please contact the Clerk at Village Hall, by calling 518-731-2718. Look for information on our website and Facebook page.

Owls – New heads of the Owls Committee are Kim & Brett Linden, and they have made a commitment for a full owls return in 2024. Some of the original Owls Committee have retired, and they are looking for people to be involved on the committee. Please reach out to the Village Clerk if you are interested in helping.

Mansion St. Cemetery – The Restoration Committee has done a dramatic job in restoring the cemetery. A new front fence section was installed with funds raised by the Cemetery Committee, as well as Village Funds. Benches have been placed, and stones have been cleaned, to name a few. This work comes at a great expense, so consider a donation, or joining the Restoration Committee. Info is available at the Village Hall, and you can check out several of our famous graves located in the heart of the Village.

Veterans Banners – In 2022, we saw the Veterans Banner Committee place the initial banners on utility poles. This was greatly received by the residents and visitors. The Committee of: Trustee Don Daoust, Suellen Meier, and Lou Martin, have made this happen and deserve our thanks. The project is back for 2023. Please stop by Village Hall for information, or visit the Village's Website or Facebook.

American Rescue Plan Act (ARPA): The Village has received \$265,000 in ARPA funds to be used for projects specified by the grant guidelines. The projects designated this far, is approximately \$25,000 that was spent to purchase a fire gear washer and dryer for the Hose #3 firehouse. This allows for immediate washing of gear, as soon as Firemen return from a fire, to get the toxins off the gear, and protect the \$5,000 investment in each set of gear.

The Village has also committed to a joint project with the Town of Coxsackie to replace the water line at the top of Ely St. in the Village, and extending into the Town, where very small inadequate lines exist now. This area in the past had contributed to 50% of all of the water breaks. Cost projection is \$130,000-\$200,000, and the County has given us \$100,000 in ARPA for this project.

Spencer Blvd Turnaround: The Village DPW, with assistance from the Town, and County, developed a turnaround at the end of Spencer Blvd. This now allows firetrucks, ambulances, oil delivery trucks, and any delivery vehicles to not use residents' driveways to turn around.

Subject: Proposed Walk in the Village of Coxsackie
Attachments: Approved Coxsackie Walk Sanction.pdf; AVA-Insurance Binder 2023.pdf; Coxsackie Walk Packet 2_19_2023.pdf

Dear Mayor M. Evans

Linda Ferrucci and I have been working on development of a walking event for our walking club, Empire State Capital Volkssporters (ESCV), which we would like to schedule for September 30, 2023. We have received approval from our national organization American Volkssporters Association (AVA) for this event as documented in the attached Sanction form. I am also attaching a copy of the completed walk instructions and maps, and a copy of our insurance binder, as explained by Linda. This will be a simple outing with between 25 to 50 individuals, mostly seniors just enjoying a Saturday afternoon walk through your historic village. If you have any questions about the event or our club, please give me a call or send me an email.

Thanks for your attention.

Larry Godshalk
Empire State Capital Volkssporters – Vice President
Phone; 518-399-6041; Cell: 518-878-4596

COXSACKIE, NY VOLKSWALKS

A 6K and 10K walk are available and they are both **rated 2B**.

Starting Point: Coxsackie Village Hall Website: www.villageofcoxsackie.com
119 Mansion St.
Coxsackie, New York 12051 Phone: 518-731-2718

The Start Point is at the Henry R. Rausch - Coxsackie Village Hall. There is parking at the Village Hall. Village offices are open during operating hours of Monday through Friday 8:00 AM to 4:00 PM and closed Saturdays and Sundays. There is a porta potty located by McQuade Park which is behind the Village Hall. There are also restroom facilities at the Stewarts Shop on Rt 9W just before heading east on Rt 385/Mansion St. and at the Cumberland Station on Mansion St. just after making the turn onto Rt 385/Mansion St.

DIRECTIONS TO START POINT:

From the North: Take Northway (I-87) south to interchange with I-90. Use the right line for Exit 1E-W, for I-90E towards Boston. Within 0.5 miles merge onto I-87S/I-90W. Use the right two lanes to take Exit 23-1 to merge onto I-87S to New York City. Continue south on NYS Thruway I-87 for approximately 23.8 miles to Exit 21B. Take Exit 21B and turn left at the end of the ramp onto Rt 9W South. Follow RT 9W south for approx. 2 miles to the traffic light at the intersection of Rt 9W and NY-385/NY81. Turn left onto Rt 385/Mansion St. Continue on Mansion St for approx. 1.3 miles, the Village Hall will be on your left.

From the West: Take NYS Thruway (I-90) east and just before Exit 24 bear right onto I-87 S towards New York City. Continue using DIRECTIONS FROM THE NORTH.

From the East: Take (I-90) west to Exit 6A to merge onto I-787S towards Albany. After approx. 3.4 miles use right two lanes to take Exit 1 to merge onto NYS Thruway I-87 South. Continue on I-87S for approx. 18.3 miles to Exit 21B. Continue using DIRECTIONS FROM THE NORTH.

From the South: Take NYS Thruway (I-87) north to Exit 21B. Continue using DIRECTIONS FROM THE NORTH.

Course Description: Coxsackie is a River Town, which means there is a significant elevation difference from the upper to the lower village, down by the river. Therefore, expect to encounter significant inclines and declines along the route. This is an old village so some places have sidewalks, others do not, which means you will be required to walk along the roadway at times.

The following map & directions may only be used in conjunction with a signed American Volkssport Association athletic waiver. All other uses are prohibited.

For immediate emergency assistance call **911**.

WHEN IS THE EVENT

Future event (not yet open)
Starting Sat, Sep 30th, 2023 for 1 day

Start table open: Registration will be from 9 to 11 AM. Finish the walk and check back in at the Start Table by 2 PM.

WHERE IS THE EVENT

Coxsackie, New York

The address/location to the start table for mapping services such as Google or Siri is as follows:

Coxsackie Village Hall, 119 Mansion St., Coxsackie, NY 12051

WARNING: The map pin is for reference only and may not accurately indicate the start box location or the event start.

REASONS TO DO THE EVENT

Special programs

Par-For-The-Course
Town Halls / City Halls
CC: Greene County

Event comments

The Village of Coxsackie is a river port settled by a Dutch immigrant in late 1600s. In the early 1800s Eliakim Reed purchased the village and established a small wharf on the west side of the Hudson River. This wharf developed into a bustling business area due to the growth in shipments of farm goods and ice to New York City. Although a fire in 1864 burned much of the Reed Street District, it was rebuilt and the Reed Street Historic District and Riverside Park remain intact along the west bank of the Hudson River.

CONDITIONS FOR THE EVENT

Rating: 2B, Distance: 6, 10km

Restrooms: Yes
Strollers: Hard

Pets: Yes
Wheelchairs: No

Event information

Coxsackie is a River Town, which means there is a significant elevation difference from the upper to the lower village, down by the river. Therefore expect to encounter significant inclines and declines along the route. This is an old village so some places have sidewalks, others do not, which means you will be required to walk along the roadway at times.

Awards: IVV CREDIT ONLY

HOW TO GET TO THE EVENT

Driving to the start

FROM THE NORTH: Take Northway (I-87) south I-90 interchange. Take Exit 1E-W, for I-90E towards Boston. Within 0.5 miles merge onto I-87S/I-90W. Merge onto I-87S to NYC. Continue south on I-87 for ~23.8 miles to Exit 21B. At Exit 21B go south on RT 9W for ~2 miles to the traffic light at Rt 9W and NY-385/NY81 intersection. Left on Rt 385/Mansion St. Continue on Mansion St for ~1.3 miles, the Village Hall will be on your left. FROM THE WEST: Take I-90 east, just before Exit 24 bear right on I-87 S towards NYC. Continue with DIRECTIONS FROM THE NORTH. FROM THE EAST: Take I-90 west to Exit 6A to I-787S towards Albany. After ~3.4 miles take Exit 1 to I-87 South towards NYC. After ~18.3 miles take Exit 21B. Continue with DIRECTIONS FROM THE NORTH. FROM THE SOUTH: I-87 north to Exit 21B, etc.
